## About

---

Im a developer with a Bachelor's in Computer Science, and Master's in Data Science and Artificial Intelligence. Proficient in software development, algorithms and mobile application development. Experienced in building scalable applications and optimizing software solutions. Passionate about leveraging strong technical skills to contribute effectively within dynamic, technology driven teams.

## Education

---

**Kaunas University of Technology**, MSc in Data Science and Artificial Intelligence      Sept 2024 – Feb 2026  
**Kaunas University of Technology**, BS in Computer Science      Sept 2020 – July 2024

## Experience

---

**AI & Automation Workflow Specialist**, 1man.ai – Kaunas, Lithuania      Dec 2024 – March 2025

- Designed and implemented AI-driven automation workflows using no code platforms.
- Developed and optimized integrations that enhance operational scalability.
- Tested and validated workflows, ensuring seamless functionality.

**IT Support Specialist**, Basic Economy sp Z.o.o – Kielce, Poland      Aug 2024 – Oct 2024

- Integrated an automation system improving efficiency by 50
- Developed and implemented automation solutions leveraging Google Workspace tools.
- Data effectively managed to streamline workflows and reduce manual intervention.
- Managed technical documentation and supported the integration of software systems.

**Android developer Intern**, Basic Economy sp Z.o.o – Kielce, Poland      Mar 2024 – Aug 2024

- Developed an android application with personalized matching algorithms using BLE.
- Implemented efficient data management systems using Kotlin and SQLite for Decentralization.

## Projects

---

- Created algorithms for data processing and concurrency optimization in Java and C#
- Developed multi-client distributed system with RabbitMQ message queue for real-time container simulation
- Built personal portfolio website with interactive animations, project showcase, and integrated contact functionality.
- Other Projects: Included in the Engineering projects section of [Portfolio site](#), showcasing practical implementations of my projects.

## Technical skills

---

**Languages:** C++, Java, C#, SQL, Go, Kotlin, Python, R, PHP, HTML, CSS, XML, JavaScript

**Tools and Technologies:** Android SDK, .NET, Firebase, Git, Jira, Linux, Agile

## Soft Skills & Competencies

---

Communication | Attention to Detail | Critical Thinking | Adaptability | Problem Solving

## Certificates

---

[Bachelor of Computing Certificate Link](#) | [Business Analytics with Excel Certificate Link](#) | [Become a Data Analyst Certificate Link](#)
